

# Water Pumping Rentals

## Berkley Pumps + Pipe

Made available to you by Peace River Forage Association of BC

### Equipment & Capabilities:

The Peace River Forage Association of BC owns 3 Pumping Units that they make available to farmers and ranchers wishing to pump water and recharge their dugouts. Each Pumping Unit includes 1 Berkley irrigation pump and 1 mile of 6" irrigation pipe. This supply of equipment has the capability to handle most dugout filling projects and many other pumping jobs. The Berkley pumps are driven by 540 PTO drive. The pump has the ability to discharge 1000 gallons per minute with an elevation lift of 10 feet. Longer distances or higher elevation lifts will reduce the amount of discharge.

### Rental Rates:

Equipment Used	Members	Non-Members
1 <sup>st</sup> day pump + 1 mile of pipe	<b>\$500</b>	\$600
Additional 1 mile of pipe	<b>\$400</b>	\$480
Additional pump	<b>\$100</b>	\$120
1 <sup>st</sup> day pump only	<b>\$350</b>	\$420
1 mile of pipe only	<b>\$400</b>	\$480
Additional days both pump & pipe	<b>\$250</b>	\$300
Additional days pump only	<b>\$100</b>	\$120
Additional days pipe only	<b>\$150</b>	\$180

### Important Notes:

1. Transportation of the pipe is the responsibility of the renter.
2. Rental starts from equipment pickup and goes through to bringing back equipment.
3. A \$50 surcharge will be added to the total owing if bill is not paid when equipment is picked up.

# Manure Spreader For Rent

## Lowlander 75 with Vertical Beaters

Manufactured by Bunning & Distributed by Glen More Ltd.

Made available to you by Peace River Forage Association of BC

*"With this new Bunning spreader and its vertical beaters, we can apply manure directly to our hay land."*  
Glenn Hogberg,  
Chair R & D Committee

*"I can see what the rave is about with the vertical beaters. Using the raw manure, it comes out finer than the standard horizontal unit that we have been using."*  
Dale Fredrickson, Kilkerran

### Equipment Capabilities:

7.5 ton capacity; vertical beaters spread finer & more uniformly
