Organization	Program Name	Program Details	Website
BC Breeder and Feeder Association (BCBFA)	Advance Payments Program	This program administers cash advances on commodities including cereals and coarse grains, oilseed crops, pulses, specialty crops, hay and grasses, cattle, bison, sheep, and lambs.	<a href="http://bcbfa.ca/programs/advance-payments-program">http://bcbfa.ca/programs/advance-payments-program</a>
BC Cattlemen's Association	Farmland-Riparian Interface Stewardship Program (FRISP)	The Farmland-Riparian Interface Stewardship Program (FRISP) was designed to assist agricultural producers in their efforts to protect and enhance water quality, riparian vegetation, and fish habitat.	<a href="https://www.cattlemen.bc.ca/FRISP.htm">https://www.cattlemen.bc.ca/FRISP.htm</a>
BC Cattlemen's Association	Livestock protection program	The Livestock Protection Program (LPP) will provide verification and mitigation services to cattle and sheep producers for injury, harassment or death loss caused by wolves and coyotes.	<a href="https://www.cattlemen.bc.ca/lpp.htm">https://www.cattlemen.bc.ca/lpp.htm</a>
BC Cattlemen's Association	Species At Risk Partnerships on Agricultural Land (SARPAL)	A pilot program to assist cattle ranchers with implementing habitat conservation measures on the ranch for at risk species. This pilot program is designed to assist cattle producers in adopting management practices that benefit their ranch operation as well as the species. Possible project examples:	<a href="https://www.cattlemen.bc.ca/sarpal.htm">https://www.cattlemen.bc.ca/sarpal.htm</a>
Canadian Cattle Identification Agency (CCIA)	Ag Verification Programs	Canadian Cattle Identification Agency offers complimentary livestock traceability support services and one-on-one training to livestock operators and agri-businesses through a highly-specialized, technical support team.	<a href="http://www.canadaid.ca/">http://www.canadaid.ca/</a>
Co-op	Community Spaces	Co-op Community Spaces provides funding for places where communities can gather, learn and grow. Previously funded projects include educational space for agriculture.	<a href="https://www.co-op.crs/articles/detail/community-spaces">https://www.co-op.crs/articles/detail/community-spaces</a>
Government of BC	Agri-Business Planning Program	The B.C. Agri-Business Planning Program (ABPP) provides funding support for primary agricultural producers and agriculture, food & beverage processors to support informed decision making and ensure business development. Funding is available under two streams: 1.	<a href="https://www2.gov.bc.ca/gov/content/industry/agriculture-seafood/programs/agri-business-">https://www2.gov.bc.ca/gov/content/industry/agriculture-seafood/programs/agri-business-</a>
Government of BC	AgriStability Enhancement Program	AgriStability protects agricultural producers against declines in their net farming income due to market conditions, production loss or increased costs of production. Payments are made if a producer's current year margin falls more than 30% below their reference margin.	<a href="https://www2.gov.bc.ca/gov/content/industry/agriculture-seafood/programs/agriculture-">https://www2.gov.bc.ca/gov/content/industry/agriculture-seafood/programs/agriculture-</a>
Government of BC	B.C. Land Matching Program	Provides land-matching and business support services to new farmers looking for land to farm, as well as landowners interested in finding someone to farm their land.	<a href="https://youngagrarians.org/tools/land/bcland-matching-program">https://youngagrarians.org/tools/land/bcland-matching-program</a>
Government of BC	BC Lean for Food Processors Grant	This program supports specialized business skill development to enable processors to make more informed decisions, optimize operating procedures, improve production capacity, increase labour productivity and strengthen their business. It is aimed at enhancing the competitiveness of local food and beverage processing firms in the sector. The Ministry will provide successful applicants up to \$7,000 for services from a Qualified Business Consultant. Successful applicants are required to pay \$1,500 upfront to the Qualified Business Consultant.	<a href="https://www2.gov.bc.ca/gov/content/industry/agriculture-seafood/programs/bc-lean-for-food-processors-program">https://www2.gov.bc.ca/gov/content/industry/agriculture-seafood/programs/bc-lean-for-food-processors-program</a>

Organization	Program Name	Program Details	Website
Government of BC	Extreme Weather Preparedness for Agriculture	The pilot Extreme Weather Preparedness for Agriculture Program (“the Program”) invites farm and ranch businesses to apply for a new provincial cost-share funding opportunity that aims to increase farm-level climate resilience to extreme weather events. Funding is available under three streams for the first pilot intake: (1) Wildfire Preparedness Stream, (2) Flooding Preparedness Stream, and (3) Extreme Heat Preparedness Stream.	<a href="https://www2.gov.bc.ca/gov/content/industry/agriculture-seafood/programs/extreme-weather-preparedness">https://www2.gov.bc.ca/gov/content/industry/agriculture-seafood/programs/extreme-weather-preparedness</a>
Government of BC	Indigenous Agriculture Development Program	This two-step program is designed to support you to build your business management skills and knowledge through a coaching approach and with access to professional business and financial planning services from a B.C. Ministry of Agriculture pre-approved Qualified Business Consultant in the food and agriculture sector.	<a href="https://www2.gov.bc.ca/gov/content/industry/agriculture-seafood/programs/indigenous-agriculture-development-program">https://www2.gov.bc.ca/gov/content/industry/agriculture-seafood/programs/indigenous-agriculture-development-program</a>
Government of BC	Knowledge and Technology Transfer Program	The objective of the KTCP is to increase the competitiveness, resiliency, and innovation of the British Columbia (B.C.) agriculture and food sector through facilitated knowledge and technology transfer. The cost-shared reimbursement program is intended to strategically support B.C.’s producers and processors to innovate and adapt to changing environmental, production, and market conditions through practical, applied knowledge and skill development to ensure behaviour change.	<a href="https://www2.gov.bc.ca/gov/content/industry/agriculture-seafood/programs/knowledge-transfer-events">https://www2.gov.bc.ca/gov/content/industry/agriculture-seafood/programs/knowledge-transfer-events</a>
Government of BC	New Entrant Farm Business Accelerator Program	The New Entrant Farm Business Accelerator (NEFBA) Program supports the growth of new entrants by providing financial support for the development and implementation of farm business plans and growth strategies.	<a href="https://www2.gov.bc.ca/gov/content/industry/agriculture-seafood/programs/new-entrant-">https://www2.gov.bc.ca/gov/content/industry/agriculture-seafood/programs/new-entrant-</a>
Government of BC	Premise ID	Premises Identification (ID) is a way of linking poultry and livestock, including bees, to specific geographic locations. Premises ID information includes contact information to inform planning, and responses to animal disease events or natural disaster emergencies like floods or fires.	<a href="https://www2.gov.bc.ca/gov/content/industry/agriculture-seafood/programs/premises-id">https://www2.gov.bc.ca/gov/content/industry/agriculture-seafood/programs/premises-id</a>
Government of BC	Traceability Knowledge Transfer	The Traceability Knowledge Transfer (TKT) program provides funding support to agriculture, food, and seafood industry organizations for the purpose of educating their membership about traceability systems, practices, infrastructure and technologies.	<a href="https://www2.gov.bc.ca/gov/content/industry/agriculture-seafood/programs/traceability-knowledge-transfer">https://www2.gov.bc.ca/gov/content/industry/agriculture-seafood/programs/traceability-knowledge-transfer</a>
Government of BC	Workforce Analysis & Planning Program (WAPP)	The Workforce Analysis and Planning Program (WAPP) supports industry and labour market partners in the development of market intelligence, domestic workforce strategies and implementation plans to better respond to the growing labour challenges in BC’s agriculture and food industry.	<a href="https://iafbc.ca/workforce-analysis-and-planning-program/">https://iafbc.ca/workforce-analysis-and-planning-program/</a>
Government of BC'	Highways Fencing Program	Program to support construction of fencings adjacent to highway corridors.	<a href="https://www.cattlemen.bc.ca/fencing.htm">https://www.cattlemen.bc.ca/fencing.htm</a>
Government of Canada	AgriAssurance Program – National Industry Association Component	The program aims to: increase and diversify exports to markets where Canada has free trade agreements in place; support industry to develop, verify and integrate assurance systems to address market and regulatory requirements (for example, food safety, plant and animal health surveillance, animal welfare, environmental sustainability, traceability, market attributes and quality standards); and enable industry to make credible, meaningful and verifiable claims about the health, safety, and quality of Canadian agriculture products.	<a href="https://agriculture.canada.ca/en/programs/agriassurance-national-industry-association-component">https://agriculture.canada.ca/en/programs/agriassurance-national-industry-association-component</a>

Organization	Program Name	Program Details	Website
Government of Canada	AgriAssurance Program – Small and Medium-sized Enterprises	The program aims to: increase and diversify exports to markets where Canada has Free Trade Agreements are in place; support industry to develop, verify and integrate assurance systems to address market and regulatory requirements (for example, food safety, plant and animal health surveillance, animal welfare, environmental sustainability, traceability, market attributes and quality standards); and enable industry to make credible, meaningful and verifiable claims about the health, safety, and quality of Canadian agriculture products	<a href="https://agriculture.canada.ca/en/programs/agriassurance-small-medium-sized-enterprises-component">https://agriculture.canada.ca/en/programs/agriassurance-small-medium-sized-enterprises-component</a>
Government of Canada	AgriCommunication Program	The AgriCommunication Program is a 3-year, up to \$8 million federal initiative that will focus specifically on supporting activities which increase appreciation and pride in the contributions of farmers and the food industry and enhance public trust. The activities will help strengthen public trust about the origin of the food Canadians eat and how it is produced.	<a href="https://agriculture.canada.ca/en/agricultural-programs-and-services/agricommunication-program">https://agriculture.canada.ca/en/agricultural-programs-and-services/agricommunication-program</a>
Government of Canada	AgriCompetitiveness Program	AgriCompetitiveness programming will assist industry-led efforts to provide producers with information needed to build capacity and support the sector’s development. Funding will be provided to support sector-led activities such as farmer-oriented seminars and conferences that identify industry best practices and build the capacity of the sector, farm business management and farm safety information and tools, as well as activities which build agricultural awareness	<a href="https://agriculture.canada.ca/en/agricultural-programs-and-services/agricompetitiveness-program">https://agriculture.canada.ca/en/agricultural-programs-and-services/agricompetitiveness-program</a>
Government of Canada	Agricultural Clean Technology (ACT) Program	The new ACT program aims to create an enabling environment for the development and adoption of clean technology that will help drive the changes required to achieve a low-carbon economy and promote sustainable growth in Canada's agriculture and agri-food	<a href="https://agriculture.canada.ca/en/programs/agricultural-clean-technology-research-innovation-">https://agriculture.canada.ca/en/programs/agricultural-clean-technology-research-innovation-</a>
Government of Canada	Agriculture and Agri-Food Canada	The goal of the Agricultural Climate Solutions Program (ACS) – Living Labs is to accelerate co-development, testing, adoption, dissemination and monitoring of technologies and practices, including beneficial management practices (BMPs), that sequester carbon and/or mitigate greenhouse gas (GHG) emissions.	<a href="https://agriculture.canada.ca/en/agricultural-programs-and-services/agricultural-climate-solutions-program-living-labs-step-1-what-program-offers">https://agriculture.canada.ca/en/agricultural-programs-and-services/agricultural-climate-solutions-program-living-labs-step-1-what-program-offers</a>
Government of Canada	AgriDiversity Program	The program aims to strengthen the sector and build its capacity by: - helping members from marginalized and underrepresented groups to develop their leadership skills to take on a greater leadership role	<a href="https://agriculture.canada.ca/en/programs/agridiversity">https://agriculture.canada.ca/en/programs/agridiversity</a>
Government of Canada	AgriInnovate Program	The program provides repayable contributions to incent targeted commercialization, demonstration and/or adoption of commercial-ready innovative technologies and processes that increase agricultural and agri-food sector competitiveness and sustainability benefits.	<a href="https://agriculture.canada.ca/en/programs/agriinnovate">https://agriculture.canada.ca/en/programs/agriinnovate</a>
Government of Canada	AgriInvest	Self-managed producer-government savings account that allows producers to set money aside which can be used to recover from small income shortfalls, or to make investments to reduce on-farm risks	<a href="https://agriculture.canada.ca/en/agricultural-programs-and-services/agriinvest">https://agriculture.canada.ca/en/agricultural-programs-and-services/agriinvest</a>
Government of Canada	AgriMarketing	The program aims to increase and diversify exports to markets where Canada has free trade agreements in place.	<a href="https://agriculture.canada.ca/en/programs/agrimarketing">https://agriculture.canada.ca/en/programs/agrimarketing</a>
Government of Canada	AgriScience	Provides non-repayable funding and collaborative support with Agriculture and Agri-Food Canada research scientists for precommercial science activities and research. AgriScience Projects aim to support specific shorter-term research activities to help industry overcome challenges and address fiscal barriers experienced by small and emerging sectors.	<a href="https://agriculture.canada.ca/en/programs/agriscience-projects">https://agriculture.canada.ca/en/programs/agriscience-projects</a>

Organization	Program Name	Program Details	Website
Government of Canada	AgriStability	Provides support when you experience a large margin decline.	<a href="https://agriculture.canada.ca/en/agricultural-programs-and-services/agristability">https://agriculture.canada.ca/en/agricultural-programs-and-services/agristability</a>
Government of Canada	AgriTalent Student Work Placement Program (SWPP)	CAHRC's AgriTalent program supports the development of connections between post-secondary students, employers in agriculture and post-secondary institutions and contributes towards preparing a job-ready workforce for the Canadian agriculture industry. As part of this program, subsidized Work Integrated Learning (WIL) opportunities connect employers with post-secondary students to ensure higher participation by post-secondary students within the industry with special focus on including under-represented and equity-seeking groups.	<a href="https://cahrc-ccrha.ca/programs/agri-talent">https://cahrc-ccrha.ca/programs/agri-talent</a>
Government of Canada	BioTalent Skilled Newcomer Internship for the Bio-Economy	The Skilled Newcomer Internship for the Bio-economy program helps newcomers get a foot in the door. The program covers 75% of a participant's salary up to a maximum of \$20,000 for bio-economy employers to hire, accommodate and train IEPs for a three-to-nine-month work placement. It presents an opportunity for employers to access talented individuals they might	<a href="https://www.biotalent.ca/programs/skilled-newcomer-internships-for-the-bio-economy/">https://www.biotalent.ca/programs/skilled-newcomer-internships-for-the-bio-economy/</a>
Government of Canada	BioTalent Student Work Placement Program (SWPP)	The program's wage subsidies help knock down cost barriers, by covering the cost of a student's salary by 50% up to a maximum of \$5,000 and 70% up to a maximum of \$7,000 for first-year students and under-represented groups including: women in science, technology,	<a href="https://www.biotalent.ca/programs/student-work-placement-program/">https://www.biotalent.ca/programs/student-work-placement-program/</a>
Government of Canada	Canadian Agricultural Strategic Priorities Program	In order to be eligible for funding, applicants must clearly demonstrate the issue that is facing the Canadian agriculture, agri-food and agri-products sector, how the project results will benefit the sector, and how the project aligns with one or more of the four priority areas identified: adaptation to new technology; environmental sustainability; strategic planning and capacity building; and emerging issues.	<a href="https://www.agr.gc.ca/eng/agricultural-programs-and-services/canadian-agricultural-strategic-priorities-program/">https://www.agr.gc.ca/eng/agricultural-programs-and-services/canadian-agricultural-strategic-priorities-program/</a>
Government of Canada	Career Launcher - ImpAct Internships	Support Canada's Sustainable Development Goals (SDG) effort! Create an SDG ambassador in your community by hiring students, recent grads, and youth disproportionately affected by COVID-19 for impactful work experience. You can get up to \$10,000 towards their salary	<a href="https://www.careerlauncher.ca/employers/our-internship-programs/impact/">https://www.careerlauncher.ca/employers/our-internship-programs/impact/</a>
Government of Canada	Food Waste Prevention and Diversion: Research and Capacity Building Fund	Project proposals should target research and capacity building opportunities for reducing and/or diverting food and other organic waste from landfill. Project outcomes with the ability to be leveraged by others across Canada to support policy, program or project development are encouraged.	<a href="https://www.canada.ca/en/environment-climate-change/services/environmental-funding/food-waste-prevention-diversion-fund.html">https://www.canada.ca/en/environment-climate-change/services/environmental-funding/food-waste-prevention-diversion-fund.html</a>
Government of Canada	Local Food Infrastructure Fund	The program is aimed at community-based, not-for-profit organizations with a mission to reduce food insecurity by establishing and strengthening their local food system.  The program's primary goal is to help increase food security through investments in	<a href="https://www.agr.gc.ca/eng/agricultural-programs-and-services/local-food-infrastructure-fund/">https://www.agr.gc.ca/eng/agricultural-programs-and-services/local-food-infrastructure-fund/</a>
Government of Canada	NRC Industrial Research Assistance	The National Research Council of Canada Industrial Research Assistance Program (NRC IRAP) provides advice, connections, and funding to help Canadian small and medium-sized businesses increase their innovation capacity and take ideas to market.	<a href="https://nrc.canada.ca/en/support-technology-innovation/outreach-initiative-grants-contributions-program">https://nrc.canada.ca/en/support-technology-innovation/outreach-initiative-grants-contributions-program</a>
Innovate BC	BC On-Farm Technology Adoption Program	The BC On-Farm Technology Adoption Program provides cost-shared funding to eligible participants to adopt new technologies on-farm that will enhance profitability, productivity, and/or efficiency.	<a href="https://www.innovatebc.ca/programs/bc-on-farm">https://www.innovatebc.ca/programs/bc-on-farm</a>

Organization	Program Name	Program Details	Website
Investment Agriculture Foundation	Agricultural Water Infrastructure	Program objectives: (1) Target funding in water-scarce and drought-prone areas that will be increasingly stressed by climate change, and that will benefit from more efficient infrastructure or storage to maximize available water for agricultural uses particularly irrigation and livestock watering; and (2) Target funding in areas with sufficient water supply or with high potential for farmland expansion that could lead to an increase in agricultural production with additional water infrastructure.	<a href="https://iafbc.ca/agricultural-water-infrastructure-program/#application">https://iafbc.ca/agricultural-water-infrastructure-program/#application</a>
Investment Agriculture Foundation	BC Climate Agri-Solutions Fund (BCCAF)	The BC Climate Agri-Solutions Fund (BCCAF) provides cost-shared funding to eligible producers and supports the training of certified crop advisors and agrologists as well as information sharing throughout the agricultural community. The objective of BCCAF is to	<a href="https://bccaf.ca/program/">https://bccaf.ca/program/</a>
Investment Agriculture Foundation	Beneficial Management Practices (BMP) program	The Beneficial Management Practices (BMP) program is a complementary, on-farm cost-share incentive program to assist farm and ranch operations to mitigate some of the risks identified in the farm-specific Environmental Farm Plans (EFPs). The goal of the BMP program is to	<a href="https://iafbc.ca/environmental-farm-plan/#aboutBMP">https://iafbc.ca/environmental-farm-plan/#aboutBMP</a>
Investment Agriculture Foundation	Environmental Farm Plan	Funded by the Canadian Agricultural Partnership Program, a federal-provincial-territorial initiative, the Environmental Farm Plan Program's objective is to provide farm and ranch operators with the means to identify agri-environmental risks and opportunities. The goal of	<a href="https://iafbc.ca/environmental-farm-plan/">https://iafbc.ca/environmental-farm-plan/</a>
Investment Agriculture Foundation	Farmed Animal Disease Program	The program aims to improve the level of planning, preparedness, prevention and mitigation of the BC agriculture sector to prevent and minimize impacts, and increase the sector's preparedness and resilience, for significant farmed animal diseases.	<a href="https://iafbc.ca/fad/">https://iafbc.ca/fad/</a>
Investment Agriculture Foundation	Food Affordability and Innovation Fund: Food Storage, Distribution &	The Food Storage, Distribution and Retail Program supports food system partnerships in BC to advance practices, processes, infrastructure, and collaborations that will strengthen and streamline food system logistics, storage, and transportation and address supply chain	<a href="https://iafbc.ca/food-storage-distribution-and-retail-program/">https://iafbc.ca/food-storage-distribution-and-retail-program/</a>
Investment Agriculture Foundation	Food Processing Growth Fund	The Food Processing Growth Fund supports BC's diverse value-added sector, targeting established businesses working to scale up to increase productivity, business opportunities and competitiveness. The fund provides support for established food processors' scale-up	<a href="https://iafbc.ca/fpg/#dates">https://iafbc.ca/fpg/#dates</a>
Investment Agriculture Foundation	Indigenous Food Systems and Agriculture Partnership Program (IFSAP)	The Indigenous Food Systems and Agriculture Partnership Program (IFSAP) supports First Nations and Indigenous communities, businesses, and organizations in increasing food security and sovereignty over their food systems and strengthens Indigenous peoples' success	<a href="https://iafbc.ca/ifsap/">https://iafbc.ca/ifsap/</a>
Investment Agriculture Foundation	Light Reflecting Material Program	The NEW Light Reflecting Materials Program provides cost-shared funding for producers to purchase light reflective materials (LRMs) for installation and use in the 2023 growing season. Research and practical demonstrations show that light reflecting materials improve colouring	<a href="https://iafbc.ca/tree-fruit/">https://iafbc.ca/tree-fruit/</a>
Investment Agriculture Foundation	Perennial Crop Renewal Program	Program aims to support farmers to adapt to environmental and market conditions by diversifying, renovating, or expanding production; and support agricultural sectors to evaluate and define agronomic and market opportunities.	<a href="https://iafbc.ca/pcrp/">https://iafbc.ca/pcrp/</a>

Organization	Program Name	Program Details	Website
NDIT Northern Development Initiative Trust	BC Hydro Peace Agricultural Compensation Fund	Funding available for three streams: 1. Events and Educational Initiatives: <ul style="list-style-type: none"> <li>• Up to \$5,000 grant to a maximum of 80% of the eligible project budget for local events</li> <li>• Up to \$10,000 grant to a maximum of 80% of the eligible project budget for provincial events</li> <li>• Up to \$15,000 grant to a maximum of 80% of the eligible project budget for national events</li> </ul> 2. Farming Infrastructure (fixed capital or non-fixed capital), and <ul style="list-style-type: none"> <li>• Up to \$50,000 grant to a maximum of 75% of the eligible project budget for FIXED capital projects</li> <li>• Up to \$50,000 grant to a maximum of 50% of the eligible project budget for NON-FIXED capital projects</li> </ul> 3. Research and Demonstration Initiatives <ul style="list-style-type: none"> <li>• Up to \$100,000 grant to a maximum of 70% of the eligible project budget</li> </ul>	<a href="https://www.northerndevelopment.bc.ca/funding-programs/partner-programs/bchydro-agricultural-fund/">https://www.northerndevelopment.bc.ca/funding-programs/partner-programs/bchydro-agricultural-fund/</a>
NDIT Northern Development Initiative Trust	Economic Infrastructure	The Economic Infrastructure program supports projects of regional and local significance that contribute to economic growth and stronger communities. These projects include renovations or new construction of public multi-use facilities or capital investments that drive revenue	<a href="https://www2.gov.bc.ca/gov/content/employment-business/economic-">https://www2.gov.bc.ca/gov/content/employment-business/economic-</a>
NDIT Northern Development Initiative Trust	Marketing Initiatives	To support new campaigns or projects that promote and/or position a community or region to take advantage of opportunities that support economic vitality and diversification. Must be new initiatives that stand alone from existing marketing activities.	<a href="https://www.northerndevelopment.bc.ca/wp-content/uploads/2020/11/NDIT-">https://www.northerndevelopment.bc.ca/wp-content/uploads/2020/11/NDIT-</a>
NDIT Northern Development Initiative Trust	Northern Industries Innovation Fund (NIIF)	The Northern Industries Innovation Fund (NIIF) program provides incremental funding to support innovation projects that increase the competitiveness of local businesses in traditional industries across Northern B.C. The program is also intended to support economic	<a href="https://www.northerndevelopment.bc.ca/funding-programs/business-">https://www.northerndevelopment.bc.ca/funding-programs/business-</a>
New Relationship Trust (NRT)	Food Security and Sovereignty Fund	The Indigenous Food Security & Sovereignty (IFS) Grant provides non-repayable funding contributions to First Nation communities, Indigenous organizations, businesses, and entrepreneurs in British Columbia that want to participate in and receive financial supports to	<a href="https://newrelationshiptrust.ca/apply-for-funding/sustainability-development-goals-sdg-">https://newrelationshiptrust.ca/apply-for-funding/sustainability-development-goals-sdg-</a>
Peavey Mart	The Peavey Industries Community Agricultural Grant	Offers a source of funding for innovative local agricultural projects that will help strengthen your local rural area, town or city.	<a href="https://www.peaveymart.com/community-agri-grant">https://www.peaveymart.com/community-agri-grant</a>
Scotts Canada	Gro for Good	Scotts Canada evaluates a number of critical factors based on the information provided in the application form, including, but not limited to: the project's positive influence and impact on a community; the project's alignment with the mission of Scotts Canada and its	<a href="https://www.communitiesinbloom.ca/wp-content/uploads//2022/01/2.-">https://www.communitiesinbloom.ca/wp-content/uploads//2022/01/2.-</a>
Verified Beef Production Plus	BC-VBP+ program	The BC-VBP+ program is one of several programs offered through BCCA Program Delivery Inc. Direction and support of the BC-VBP+ program is provided by the BC Cattlemen's Association, BC Association of Cattle Feeders, the BC Breeder and Feeder Association and the BC Industry	<a href="http://verifiedbeefproductionplus.ca/vbp-regional/british-columbia/overview-bc.cfm">http://verifiedbeefproductionplus.ca/vbp-regional/british-columbia/overview-bc.cfm</a>
Viterra	Viterra - Investing in our Communities	Projects should focus on 1) Promoting sports and recreation in rural communities with a strong focus on youth, 2) Agricultural awareness and related activities, 3) Promoting Grain industry education and safety, 4) Health and Wellness.	<a href="https://www.viterra.com/web/canada/how-we-give-back">https://www.viterra.com/web/canada/how-we-give-back</a>
